PROSPECTUS OF THE "NATIONAL MON-UMENT,"

A weekly journal to be published in Washington, under the sanction of the Washington National Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be a literary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientific articles, embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of aiding in the erection of the noble column now rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of WASHINGTON would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national sis carnestly requested, by subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument fournal, as one well qualified to perform the duties of editor, and to conduct the paper faithfully, and satisfactorily to the subscribers. They assure their fellow-cilizens that this enterprise is not a speculation gat up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, had no every moderate compensation for his services. Not one dollar, therefore, of the direct subscription

list of fifty thousand paying subscribers, at two dollars each, will yield an annual net profit of from fifty to sixty thousand dollars.

The postmasters, and secretaries of all organized bodies throughout the Union, are respectfully requested to act as agents in obtaining subscriptions, thus adding the great object of our exertions.

As all editors and publishers, on account of the object for which the Monument newspaper will be established, must wish it to succeed, it is hoped that they will contribute to its success by publishing this prospectus.

All moneys will be remitted, and all letters and moneys addressed prepaid, to the general agent of the Monument Society, Hon. Elisha Whittlessey, Washington.

OFFICERS.—Millard Fillmore, ex-officio President; Arch. Henderson, First Vice President; Walter Lenox, (Mayor of Washington.) Second Vice President; Thos. Carbery, Third Vice President; J. B. H. Smith, Treasurer; Geo. Watterston, Secretary.

BOARD OF MANAGERS.—Winfield Scott, N. Towson, Thos. Munroe, W. A. Bradley, P. R. Fendall, Walter Jones, Thomas Blagden, Peter Force, W. W. Scaton, M. F. Maury, T. Hartley Crawford, Benj. Ogle Tayloe, Elisha Whittlesey.

Terma.—The MONUMENT will be printed on a double-royal sheet—the paper and type being of the best quality—and in quarto form, containing sixteen large pages, that it may be more easily preserved. The price will be two dollars per annum, payable on the receipt of the second number. The nature of the enterprise not admitting of any credit, none can be given.

Societies and clube will be furnished with the MONUMENT on the following terms: 3 copies for \$5; 5 copies, \$5; 10 copies, \$15; &c.

Those who are disposed to patronise the MONUMENT are requested to forward their names to the General Agent, without delay. The first number will be published early in May, and the second on the second day of August, and weekly thereafter; time being allowed for the Prospectus to be circulated, and for the second to make returns. As

in May, and the second on the second day of August, and weekly thereafter; time being allowed for the Prospectus to be circulated, and for the agents to make returns. As all subscribers will be contributors to the Monument itself, their names will be published in the paper.

No exhibitor of Agricultural Implements at the above named Fair, having received one-half the amount of premiums awarded us on the different kinds of Implements and Machines, it is conclusive evidence that ours were considered the best and most valuable on exhibition.

At the great Fair of the Maryland Institute, for the promotion of the Mechanic Arts, held in Baltimore in October and November, 1850, the first premium (a heavy Silver Media) was awarded to Ezra Whitman, jr., for the largest and best display of Agricultural Implements. Also first premium (another Silver Media) for his Improved Wrought Iron Railway Horse Power, which was made for exhibition at the World's Fair, in London, in May, 1851.

Our stock this season will be the largest ever offered in this city, and probably the largest in the world, consisting of more than 5,000 Ploughs, Z50 Threshing Machines, 500 Gulidvators, Reaping Machines, Wheat Drills, Corn and Cob Crushers, Burr Stone Mills, Cider Mills, Hay and Cottop Presses, together with every article which a farmer or planter could wish in the prosecution of his purants; all of which will be sold on reasonable terms, at wholesale or retail.

Austin's Magic Freezer,
Through in six minutes. For the preparation of
Ice Creams, Water Ices, &c.—Patented September 19, 1848.

tember 19, 1848.

THE distinguising merits of this Apparatus are—
1st. The astonishing rapidity of the process, surpassing belief—hence the name.
2d. The Cream during the progress of freezing becomes charged with atmospheric sir, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.
3d. It does not require a tenth part of the labor that the common Freezer does.
4th. It does its work better, producing a better article, in every respect, than by any other mode.
5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.
The annexed testimonial from the Proprietor of the Eutaw House will put to rest all-doubt.
"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

H. F. JACKSON,

H. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848.

"This is to certify, that during the summer of 1848, I used one of Austin's Fatent Ice Cream Freezers of the largest size, (10 gallons,) making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

reception and accommodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly agiven in an advertisement. Suffice it to say that no expense has been spared to render any apartment perfect. The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found to be of the most beautiful and tasteful manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, herefofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete, giving to Newark Academy fadilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy chiory many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recite in any of the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College is can be profitably enjoyed by academical tudents.

the College as can be promably emptyed by academics. students.

The charge for Boarding, Washing, Fuel, Light, &c., with tuition in the English, Latin, and Greek, is seventy dollars for the Summer Session, and seventy-five for the Winter Session. WILMINGTON BOARDING SCHOOL
FOR BOYS.—This institution a situated in one of the healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary Ragitish branches, Natural Philosophy, Chemistry, Physiology, History, Bhetoric, the various branches of Mathematics, and the Latin, Greek, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month (September,) and is divided into four quarters of eleven weeks each, teaving a vacation of two months, from about the middle of the Seventh month (July).

THE TESTIMONY OF ONE OF OUR LAWYERS.—
Important the second of the destinonials of which you are already in possession, as to the efficacy of your Medicine, "THE GHEAT VA. REMEDY," at the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from the use, and the salutary effects which I have derived from the use, and the salutary effects which I have derived from the use as you may think proper to make of it, this formal seknowledgment of its sanitary virtues. My own case was Dyspepids of long duration, and very aggravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaciation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertige and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepais, Chronic Headsche, and Sore Throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfeeble energies of the digestive organs, and imparts strength and reanimation to the whole system.

Very respectfully, yours, &c.,

Baltimore, Md. VALUABLE LAW BOOKS.

WE invite the attention of the Profession, and others desiring Law Books, to our very extensive stock, which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports, English Common Law Reports,

58 Volumes, with a complete Index to the first 47 Volumes.

Since volume 30 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding, \$5 50 per vol.

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the English Common Law Reports.

By Hon. Genege Sharswood and George W. Biddle,
Esqrs. 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Common
Law Reports present to the Profession a mass of legal
learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation
and Prosecution or Defence of any case that can arise in
our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing
the Reports; and of great convenience to those having
access to, but not owning the series.

Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchaquer Reports. In my judgment they are not received by any conference Reports. recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library.

JOSEPH STORY.

CAMBRIDGE, January 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours,

REAL ESTATE IN VIRGINIA FOR SALE.

THE subscriber has not yet disposed of his real estate in Prince William county, Virginia. He is still desirous or Selling, and will do so on accommodating terms. It consists, first, of 947 acres of land, in from two and a half to four miles of Brentaville, the county town, four-seen miles of Occoquan, thirty miles of Alexandria, and from four to five miles of the Orange and Alexandria Railroad, which will be completed to Brentaville this year. This leand is well adapted to the growth of wheat, corn, rye, cats, and grass. It is a mixture of the red and grey soil, and admirably adapted to improvement by the use of clover, plaster, guano, &c. It is heavily timbered, and finely watered, having lasting springs of the purest water. It is capable of being divided into five or six good sized farms, and with tolerable buildings and small orchards on four of them. It will sell it all in a body to a company, or will divide it to suit purchasers, at prices ranging, according to quality, at from \$50.58 per acrs. I will only require one-fourth of the purchase money in hand, and the balance I will divide in three annual payments, to bear interest from the date of sale, to be secured on the property. Land is rapidly rising in value in the neighborhood, and I offer great inducements now, as I wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Brentswille, suitable for a carriage-maker, wheelwright, or blacksmith, carriage, and wheelwright shops, and other necessary buildings. \$1600 is now my price for this property—on the same terms as the land. It is within a mile and three-quarters of the railroad.

Thirdly. Nine and a quarter acres of land on the turn-pike, just above Buckland, on which are a good dwelling-house, a large wheelwright shops, kitchen, stable, dairy, and snoke-house. It would make a good tavern stand, and the shop a good stable. For this property I will take \$500—on the same terms.

FURNISHING MAIL LOCKS AND KEYS.

POST OFFICE DEPARTMENT,

March 14, 1851.

It being desirable to substitute locks and keys of some
other kind for those now in use for the mail service
of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered
at the Post Office Department until the first day of July
next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right
on the part of the Postmaster General, for the time being,

tracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional torm of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that selock suitable for the mail service should possess the following qualities, vis: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the lock and keys and pied, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract, hand the patentes will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to fuilal faithfully the terms and conditions of his contract, the Postmaster General shall have the right, besides a resort to the penal remedy hereinafte

besides a resort to the penal remedy hereinafter mentioned, to annul said contract, and to contract anew with any other party or parties as he may see fit, for furnishing similar locks and keys.

In deciding upon the proposals and specimens offered, the Postmaster General may deem it expedient to select for the through mails the lock of one bidder, and for the way mails that of another. He reserves, therefore, the right of contracting with different individuals for such different kinds of locks as he may select, and also the right to reject all the specimens and proposals, if he shall deem that course for the interest of the Department. The party or parties contracting will be required to give bond, with ample security, in the sum of thirty thousand dollars, for a faithful performance of the contract. The contract is to contain provisions for the due and proper inspection of the locks and keys, and also for guarding against their passing into improper hands; the terms of these provisions to be arranged between the Department and the successful bidder, if a bid should be accepted.

No application will be considered if not accompanied with satisfactory evidence of the trustworthy character of the bidder, and of his ability to fulfil the contract.

Letter from the Hon. Henry Clay.

Ashland, 20th July, 1859.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Magchants' Magnaine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to peasees all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magnaine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, is have man, to the cultivator of the earth, to the magnificturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that these been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant. Freeman Hunt, esq.

Extract of a letter from Hon. Millard Fillmere.

"I have read it (Merchants' Magnaine) with a good deal of attention, and have no hesitation in asying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indispensable, and to the stateman and man of general infermation almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Letter from the Hon. Thomas H. Benton.

Washington City, April 20, 1849.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchants' Magazine, and have found it in reality to be a majazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—whe will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatiet, and to all who are charged with managing the affairs of the methons, but extends to the legislator and diplomatiet, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Yery respectfully, sir, your obedient servant, THOMAS H. BENTON.

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messrs. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glanee the broad expanse of Lake Erie, the Nisgars flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorams of steamboats and censeless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT. MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. And the friends of the establishment deem it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time avail themselves of her invaluable aid and coursel.

lege, have been secured, and that female patients can at any time avail themselves of her invaluable aid and counsel.

The steward's department is under the control of a gentleman eminently qualified for that position; and unwearied pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. Baths of all descriptions, adapted to the cure of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great truths upon which the system is founded, and rendera verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and destrableness of its arrangements. The institution is now open for the reception of patients, and in full operation.
